Features & Use Case

Key Software Features

✔ Business Rules that Enforce Themselves

KronosPay applies your policies automatically — from grace periods to overtime thresholds. No more manual adjustments or guesswork.

✔ Simplified Roster Management

Plan shifts, holidays, and rotating duties. Email schedules, export to Excel, and view by department — all in one place.

✔ Absenteeism & Leave Tracking

Auto-calculate leave balances, handle carryovers, approve requests via workflow, and track all time-off data without spreadsheets.

✔ Scalable Time & Attendance

Centralize employee data, automate scheduling, and scale easily as your team grows — with multi-location and real-time support.

✔ Secure Mobile Clock-Ins

Clock-in/out with photo and GPS validation. Supports mobile teams and remote workers. Managers can approve, edit, and track everything from one dashboard.
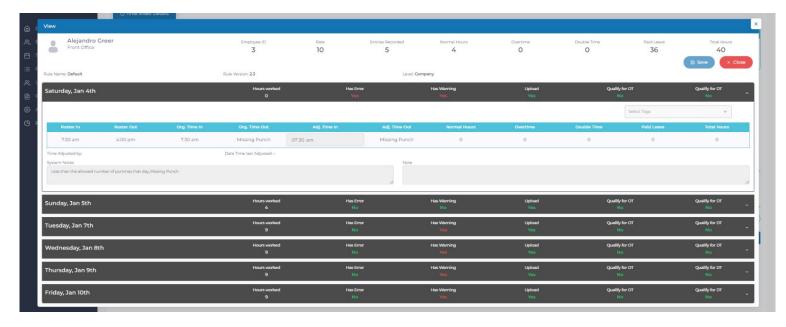

✔ Enterprise-Grade Security

Your data is encrypted, access-controlled, and hosted on a secure, monitored cloud platform

# Use Case: Time Chaos to Clock-In Clarity

Before KronosPay:

Every week, managers scrambled to fix messy time entries — late punches, missing breaks, early outs — all buried in spreadsheets or handwritten logs. Nothing matched. Staff complained about underpaid hours, payroll was delayed, and HR was stuck cleaning up the mess.

After KronosPay:

Employees clock in using PIN, mobile app, or biometric reader. KronosPay auto-applies your business rules — grace periods, late penalties, early leaves — in real time. Managers see only the exceptions. Payroll gets clean, validated timesheets ready to export. No guesswork. No bottlenecks. Just time well saved.

Key Impact:

✔ 80% reduction in manual adjustments
✔ Payroll ready in under an hour
✔ Zero disputes, maximum compliance
